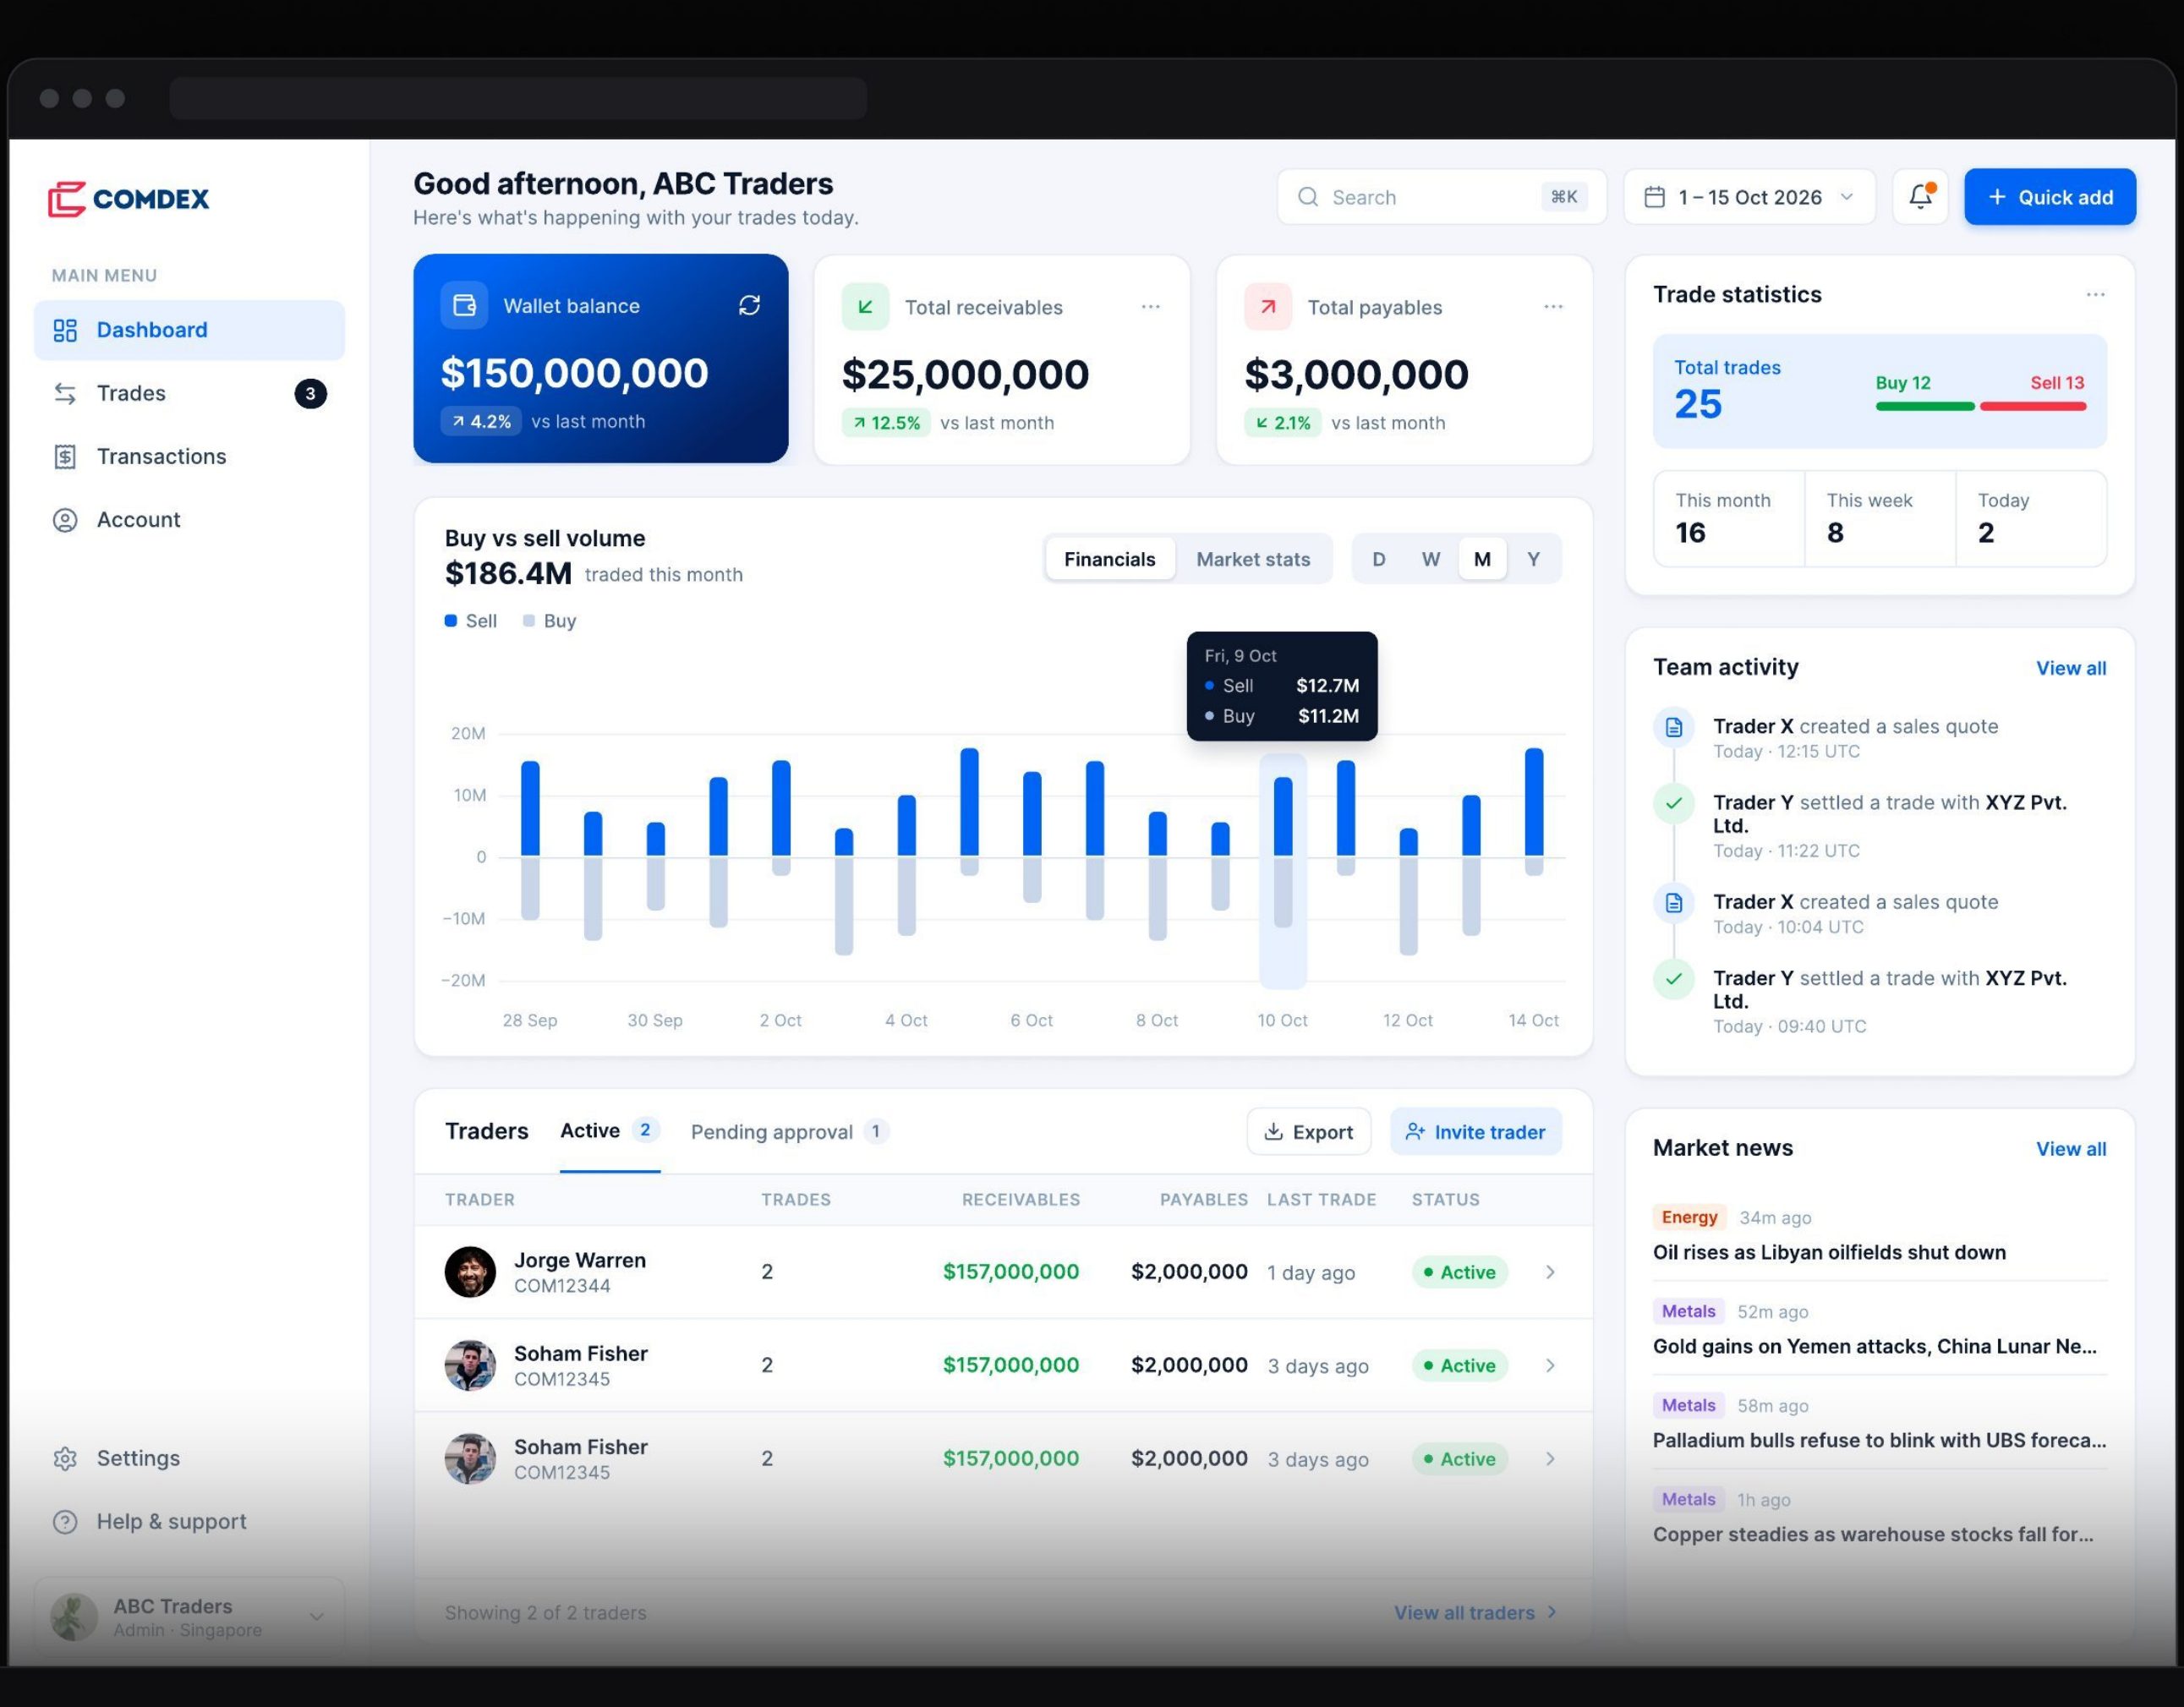
COMDEX SUDHEER DARLA · PRODUCT DESIGNER

CASE STUDY FINTECH · BLOCKCHAIN B2B SAAS

The blockchain platform for global commodity trade.

Commodity deals in a $17T market still run on emails, calls and PDFs. I designed Comdex end-to-end — one desktop product that feels like a trading terminal and takes a deal from discovery to settlement.

ROLE	TEAM	SCOPE	PLATFORM	YEAR
Sole product designer	1 PM · 3 engineers	Website · 3 modules · Block explorer	Desktop web app	2019



Good afternoon, ABC Traders
Here's what's happening with your trades today.

Wallet balance $150,000,000 ↗ 4.2% vs last month

Total receivables $25,000,000 ↗ 12.5% vs last month

Total payables $3,000,000 ↙ 2.1% vs last month

Trade statistics
Total trades 25 · Buy 12 · Sell 13
This month 16 · This week 8 · Today 2

Buy vs sell volume
$186.4M traded this month
Fri, 9 Oct · Sell $12.7M · Buy $11.2M

IMPACT AT A GLANCE

$10M+	Pilot trade volume processed on the platform
Days → 1	Multi-day email/PDF loop cut to a single Deal Room session
5	Core flows shipped as handoff-ready hi-fi
3 + 1	Product modules, plus a public block explorer

01 —— PROBLEM

Global trade ran on inboxes, not infrastructure.

Deals were stitched together from emails, calls, PDFs and manual checks — so terms and settlement were slow, and trust between counterparties was hard to establish.

PAIN POINT	DESIGN RESPONSE
Paper title in transit	On-chain title + document pack, kept in the Deal Room
Correspondent-bank lag	Escrow + dUSD, so capital isn't stuck overnight
Opaque counterparties	One Comdex ID with reusable KYC and reputation

THE SOLUTION Comdex unifies discovery, negotiation and settlement into **one closed-loop system of record** — find a counterparty, agree terms, and settle with confidence.

02 —— PROCESS

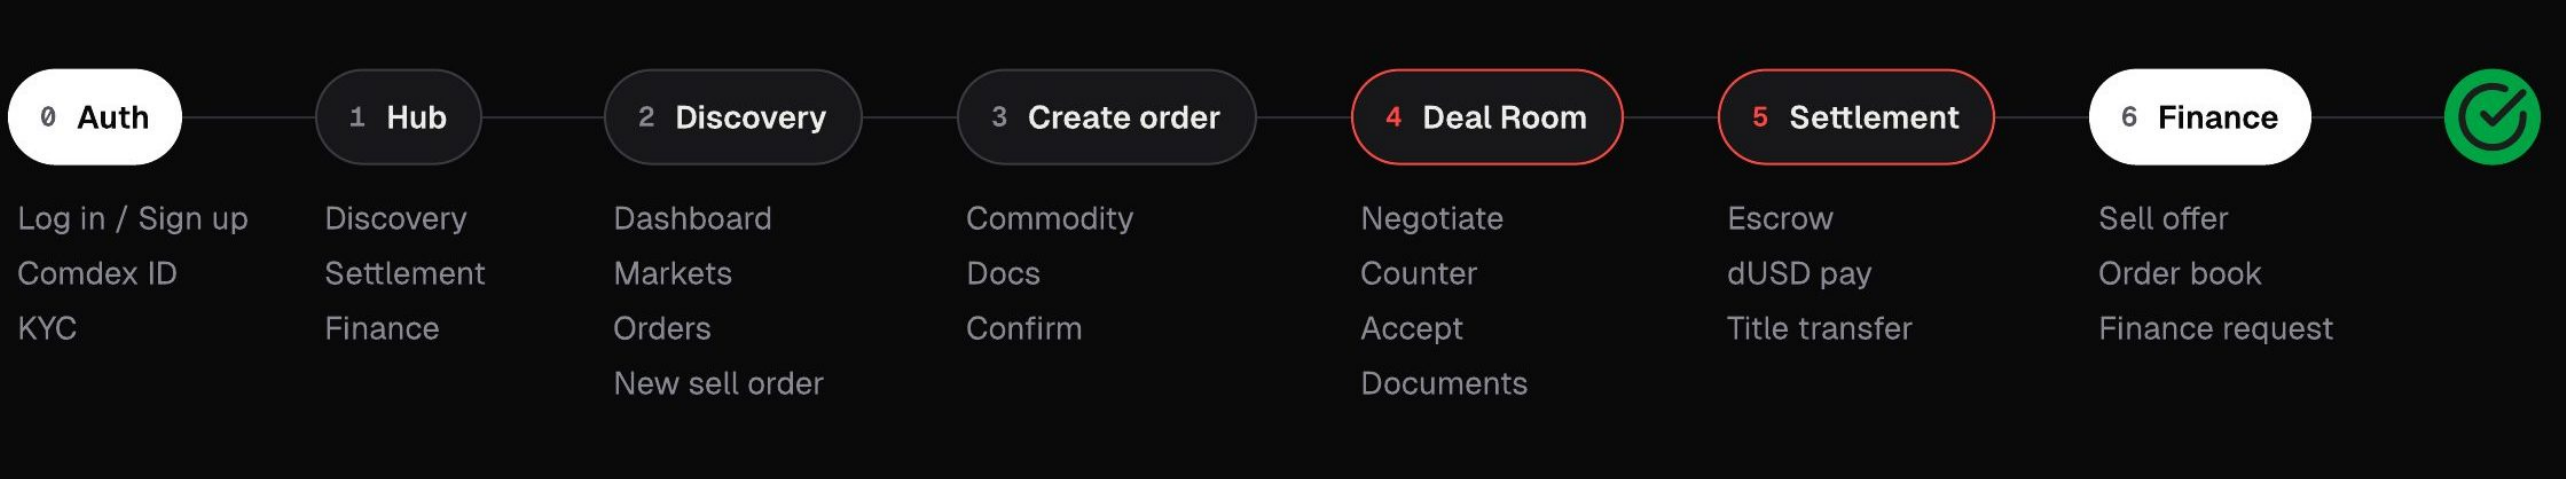
Research to handoff in four phases.

Phase 1	Phase 2	Phase 3	Phase 4
Discover	**Define**	**Develop**	**Deliver**
Market & gap research	Constraints	Mocks	Hi-fi prototype
Competitors	Problem statement	Lo-fi prototype	Engineering handoff
User personas	User flows	Test with traders	

03 —— IA & USER FLOW

One closed loop, from sign-up to settlement.

Seven steps cover the whole deal, so a trader never leaves Comdex to finish one.



0 Auth	1 Hub	2 Discovery	3 Create order	4 Deal Room	5 Settlement	6 Finance
Log in / Sign up	Discovery	Dashboard	Commodity	Negotiate	Escrow	Sell offer
Comdex ID	Settlement	Markets	Docs	Counter	dUSD pay	Order book
KYC	Finance	Orders	Confirm	Accept	Title transfer	Finance request
		New sell order		Documents		

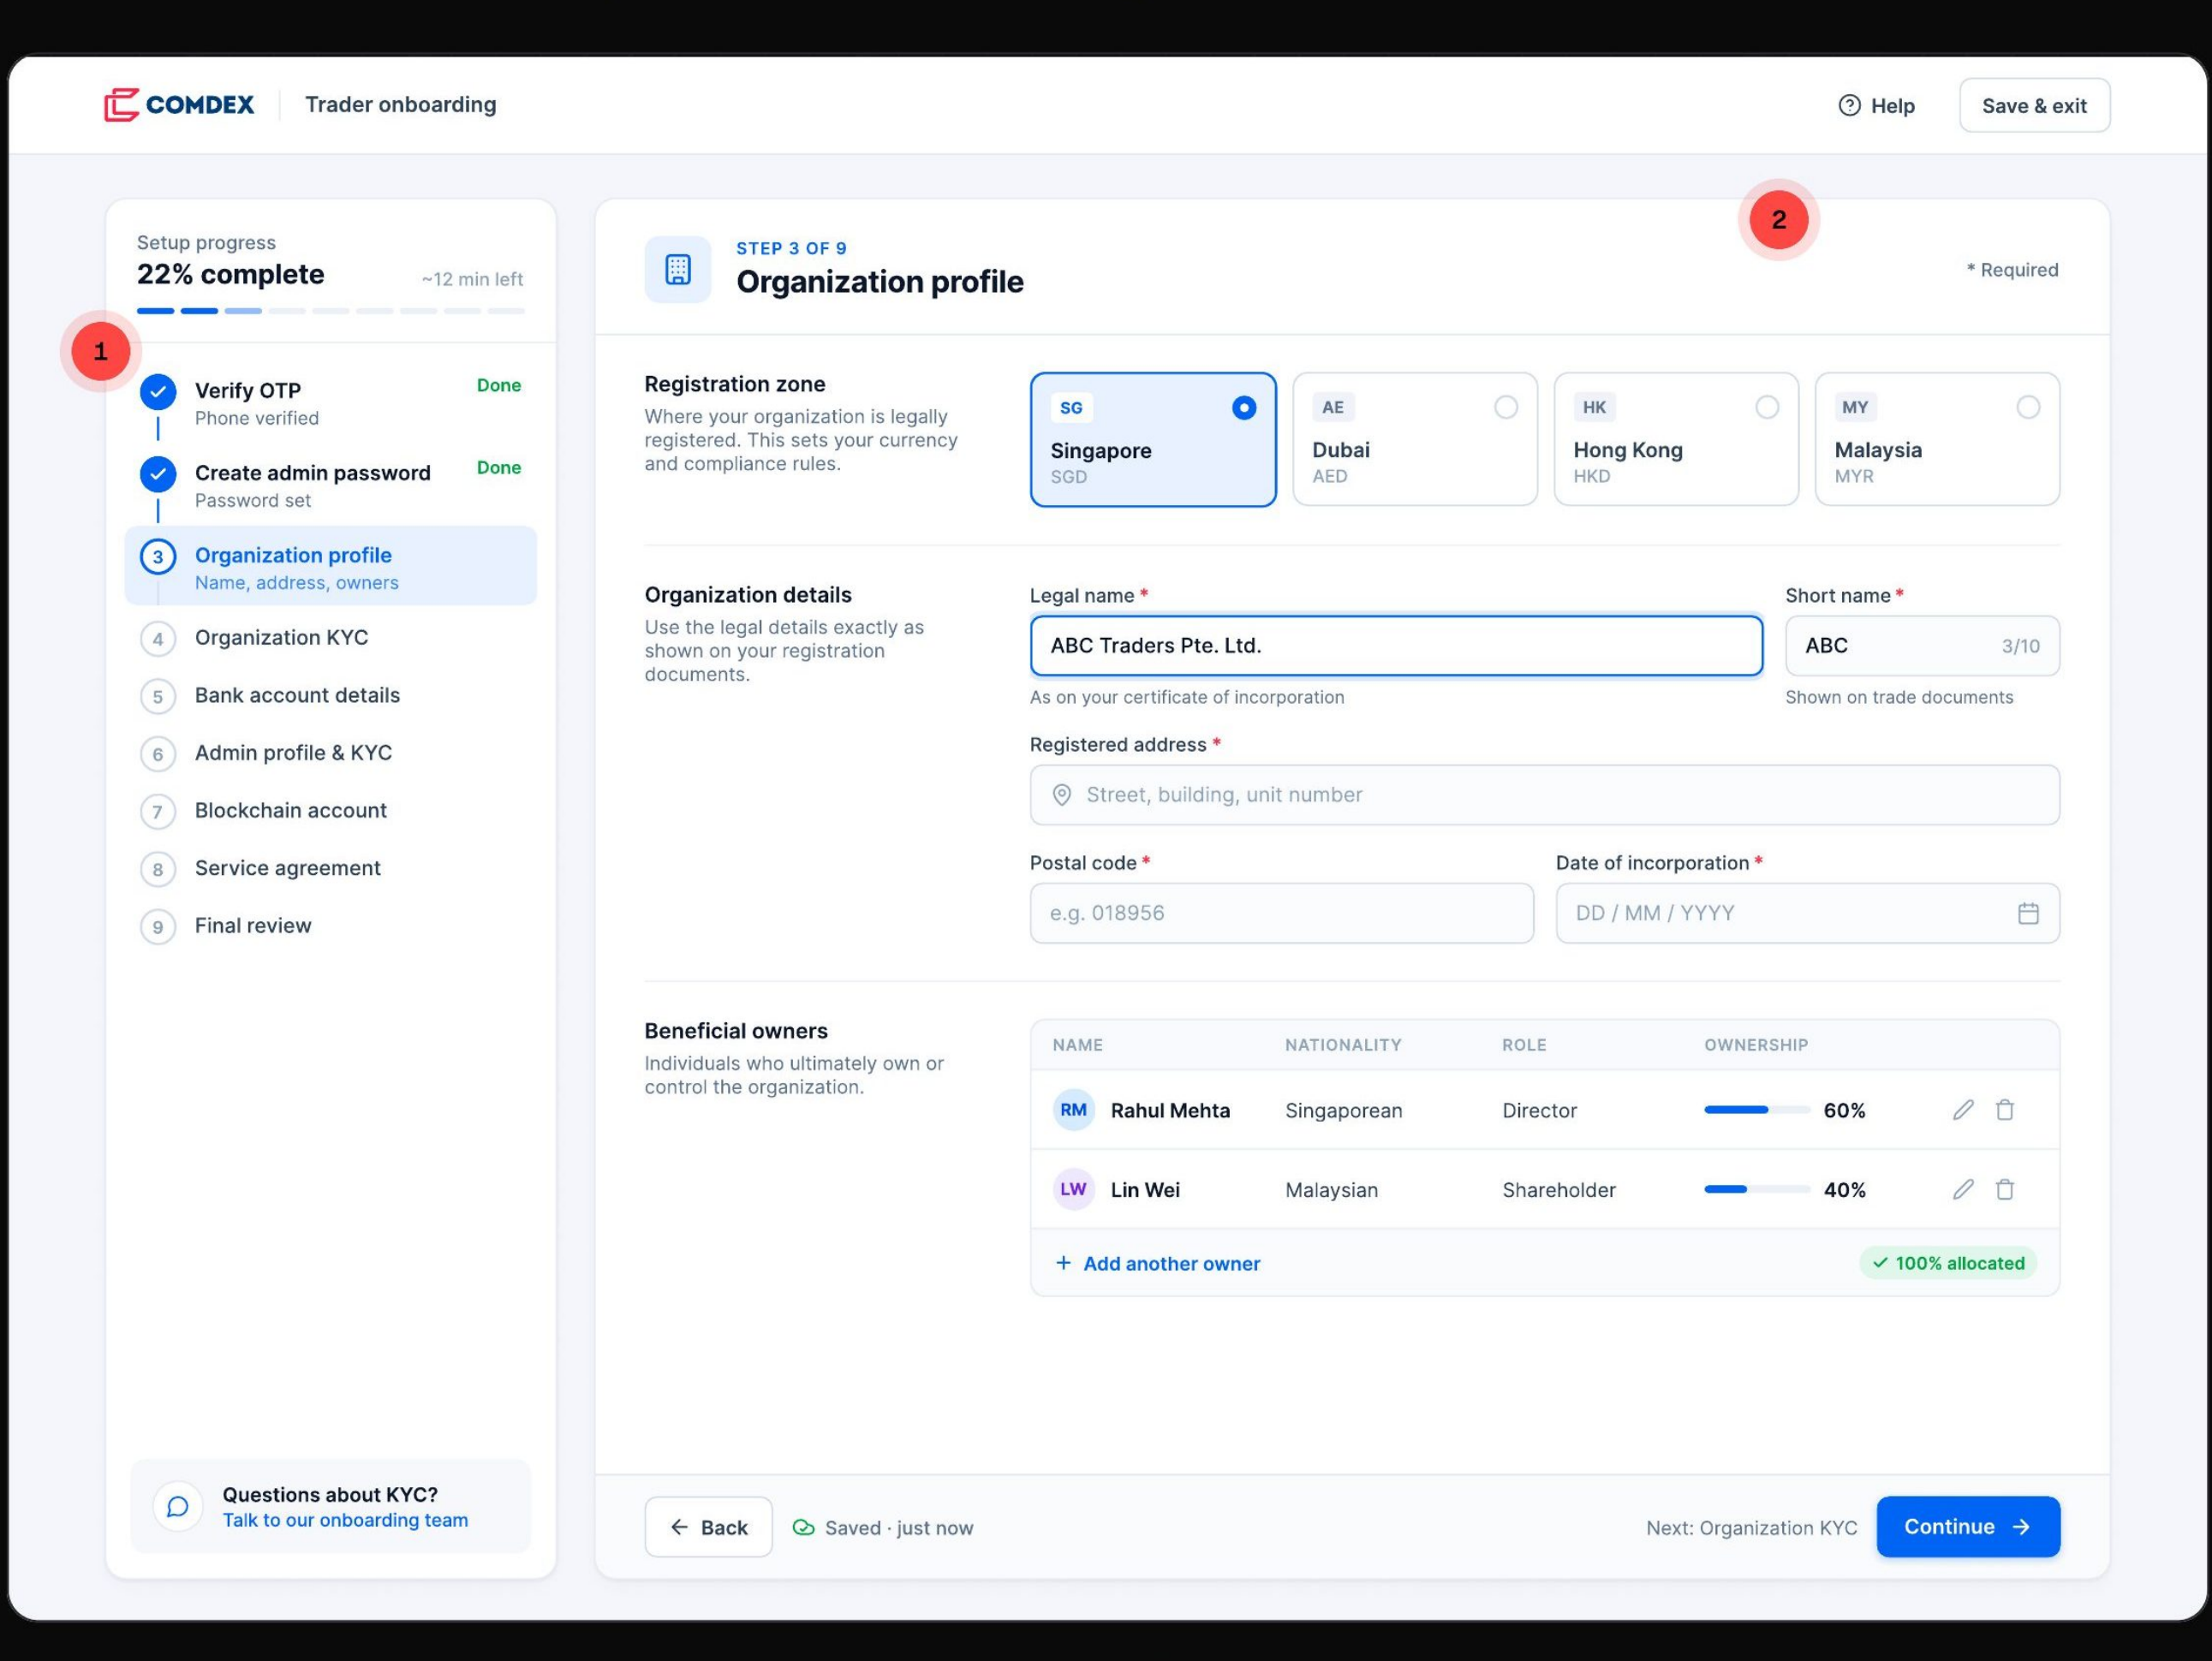
○ Where the old process lost days — the core of the redesign

04 —— KEY DECISIONS

Three screens that made the loop work.

A — COMDEX ID & KYC

One verified record for every counterparty — powering KYC, settlement and compliance from a single source of truth.



Setup progress
22% complete ~12 min left

1. Verify OTP — Phone verified — Done
2. Create admin password — Password set — Done
3. Organization profile — Name, address, owners
4. Organization KYC
5. Bank account details
6. Admin profile & KYC
7. Blockchain account
8. Service agreement
9. Final review

Questions about KYC? Talk to our onboarding team

STEP 3 OF 9
Organization profile
* Required

Registration zone
Where your organization is legally registered. This sets your currency and compliance rules.
● SG Singapore SGD ○ AE Dubai AED ○ HK Hong Kong HKD ○ MY Malaysia MYR

Organization details
Use the legal details exactly as shown on your registration documents.
Legal name *: ABC Traders Pte. Ltd. — As on your certificate of incorporation
Short name *: ABC 3/10 — Shown on trade documents
Registered address *: Street, building, unit number
Postal code *: e.g. 018956
Date of incorporation *: DD / MM / YYYY

Beneficial owners
Individuals who ultimately own or control the organization.

NAME	NATIONALITY	ROLE	OWNERSHIP
RM Rahul Mehta	Singaporean	Director	60%
LW Lin Wei	Malaysian	Shareholder	40%

+ Add another owner ✓ 100% allocated

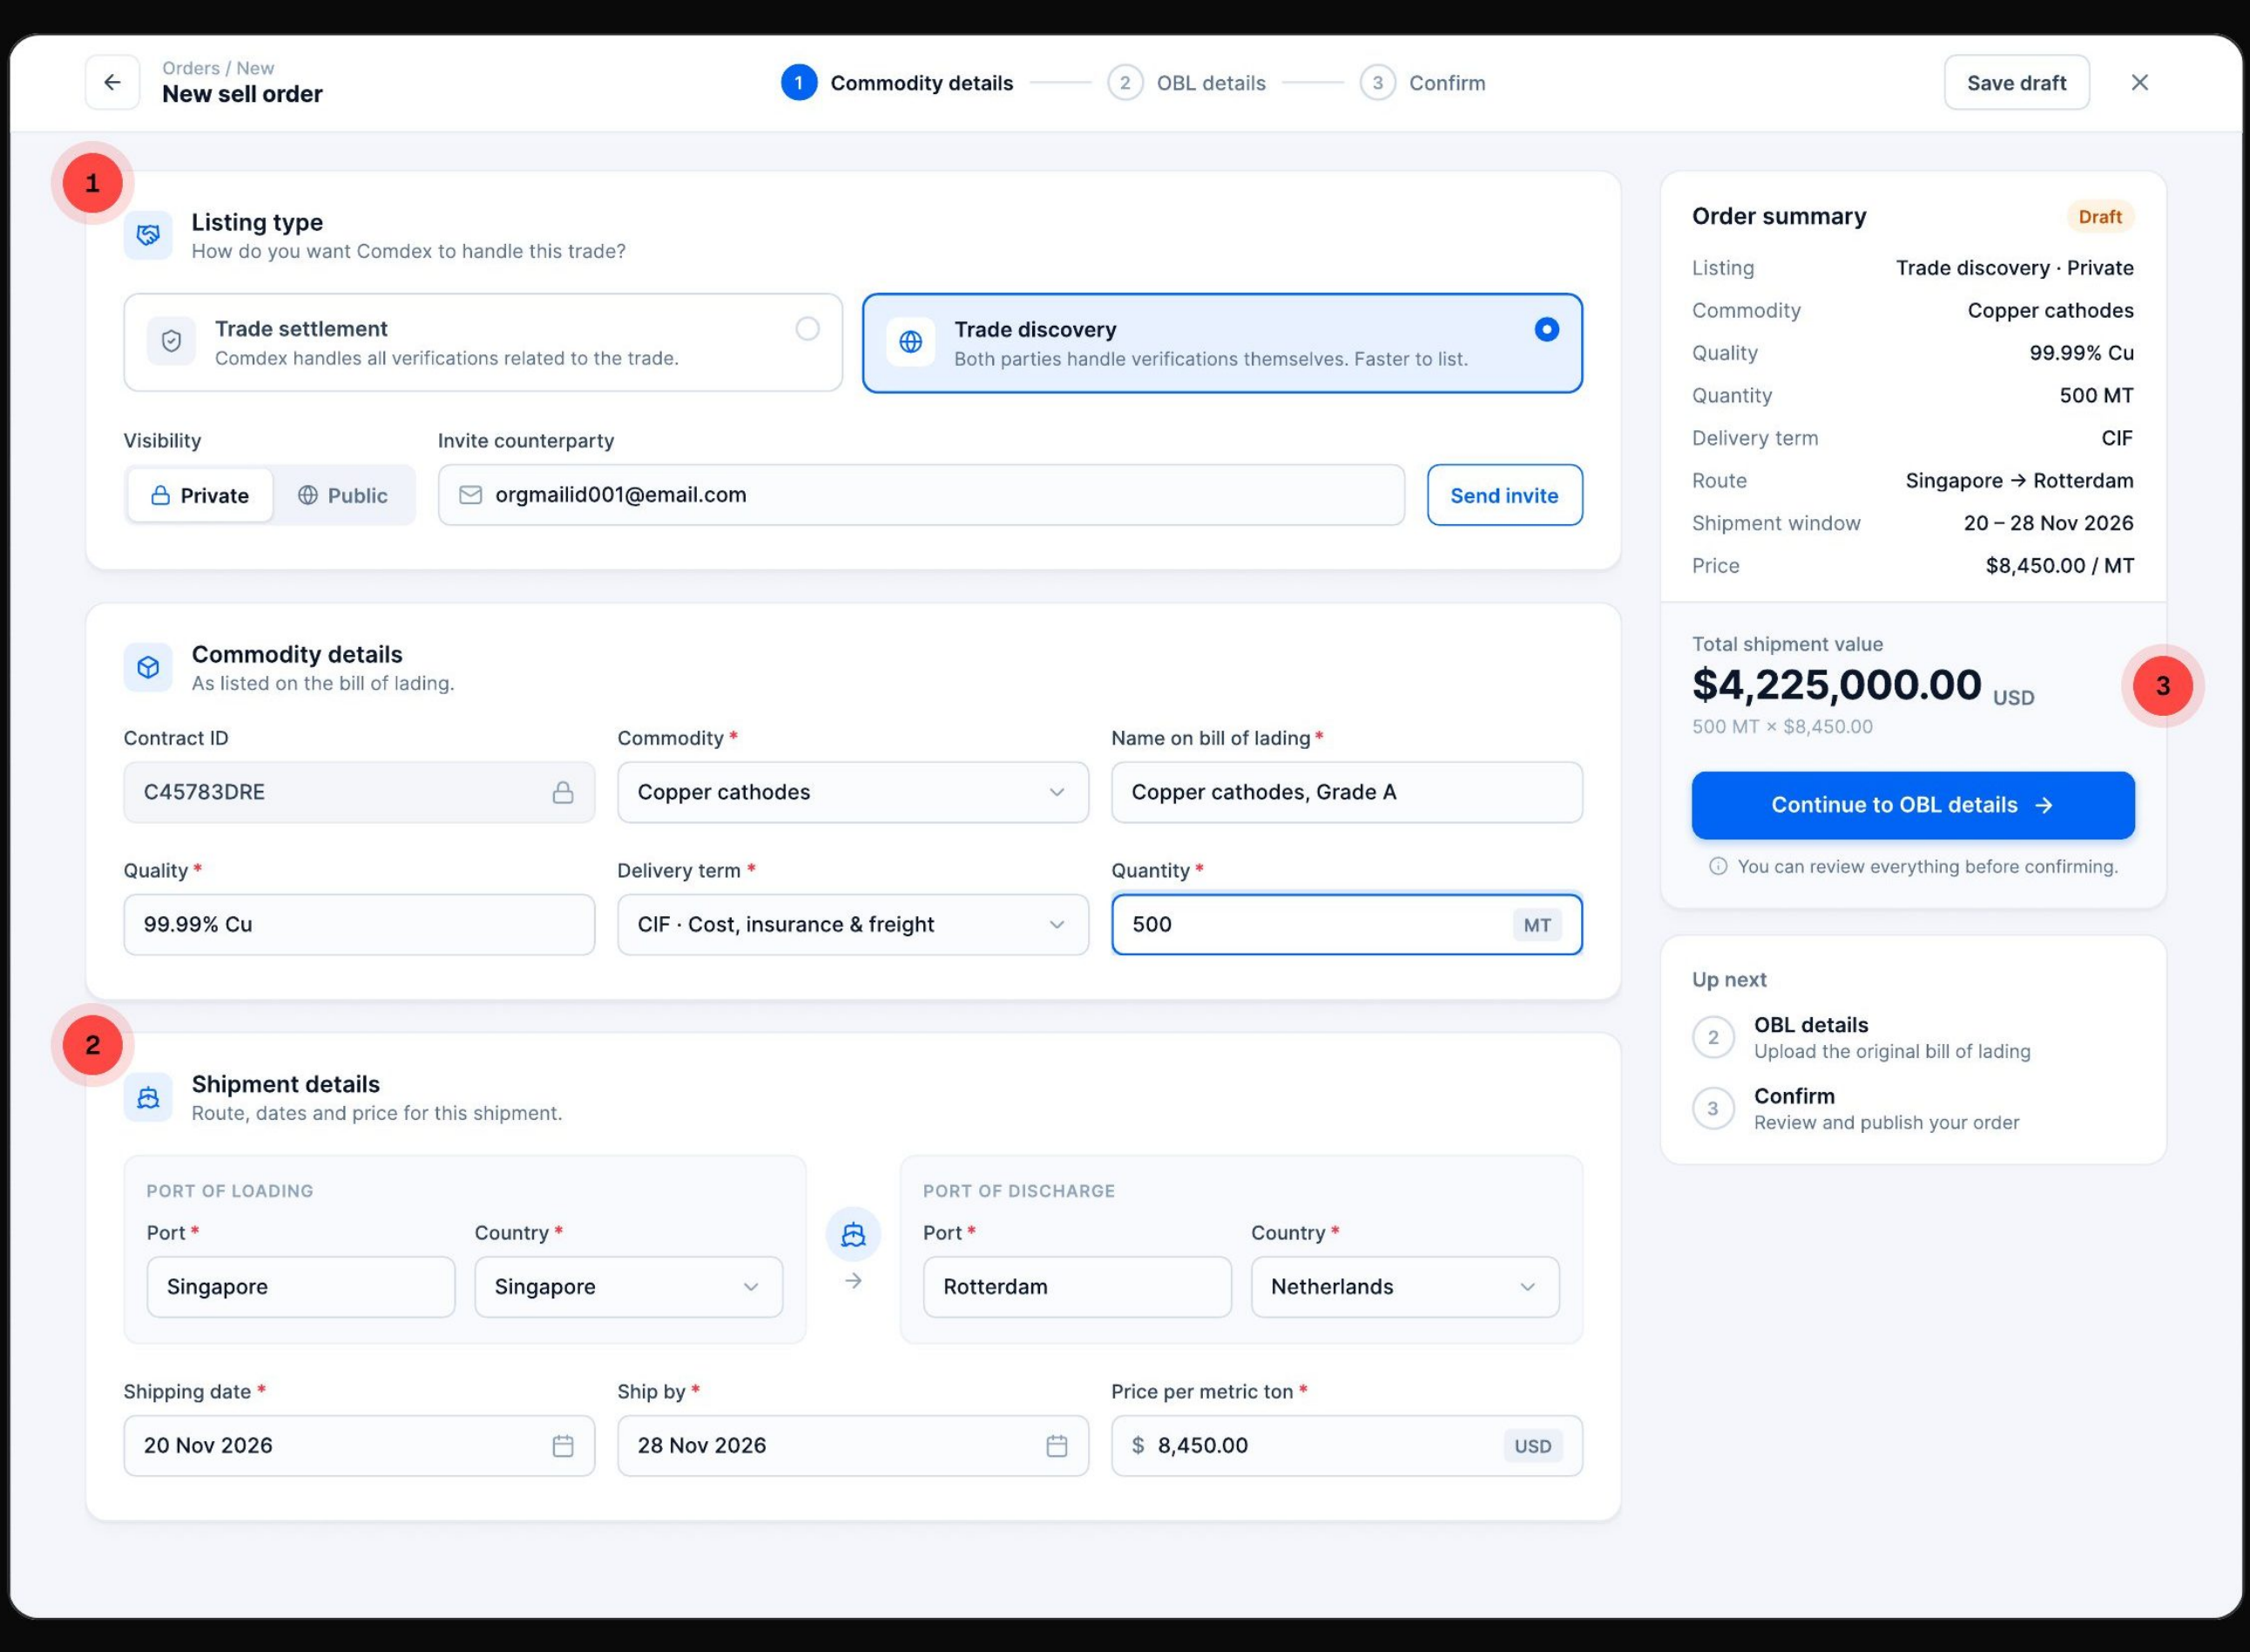
Saved · just now Next: Organization KYC

① **Guided stepper.** Traders always see what's verified and what's left.

② **Verify once, reuse everywhere.** The Comdex ID follows the trader into every deal and counterparty check.

B — NEW SELL ORDER

Lead with the irreversible choice — pick the listing type first, and let the form follow.



Orders / New
New sell order

Listing type
How do you want Comdex to handle this trade?
○ Trade settlement — Comdex handles all verifications related to the trade.
● Trade discovery — Both parties handle verifications themselves. Faster to list.
Visibility: Private · Public
Invite counterparty: orgmailid001@email.com

Commodity details
As listed on the bill of lading.
Contract ID: C45783DRE
Commodity *: Copper cathodes
Name on bill of lading *: Copper cathodes, Grade A
Quality *: 99.99% Cu
Delivery term *: CIF · Cost, insurance & freight
Quantity *: 500 MT

Shipment details
Route, dates and price for this shipment.
PORT OF LOADING — Port *: Singapore; Country *: Singapore
PORT OF DISCHARGE — Port *: Rotterdam; Country *: Netherlands
Shipping date *: 20 Nov 2026
Ship by *: 28 Nov 2026
Price per metric ton *: $ 8,450.00 USD

Order summary — Draft

Listing	Trade discovery · Private
Commodity	Copper cathodes
Quality	99.99% Cu
Quantity	500 MT
Delivery term	CIF
Route	Singapore → Rotterdam
Shipment window	20 – 28 Nov 2026
Price	$8,450.00 / MT

Total shipment value $4,225,000.00 USD
500 MT × $8,450.00
You can review everything before confirming.

Up next
2 OBL details — Upload the original bill of lading
3 Confirm — Review and publish your order

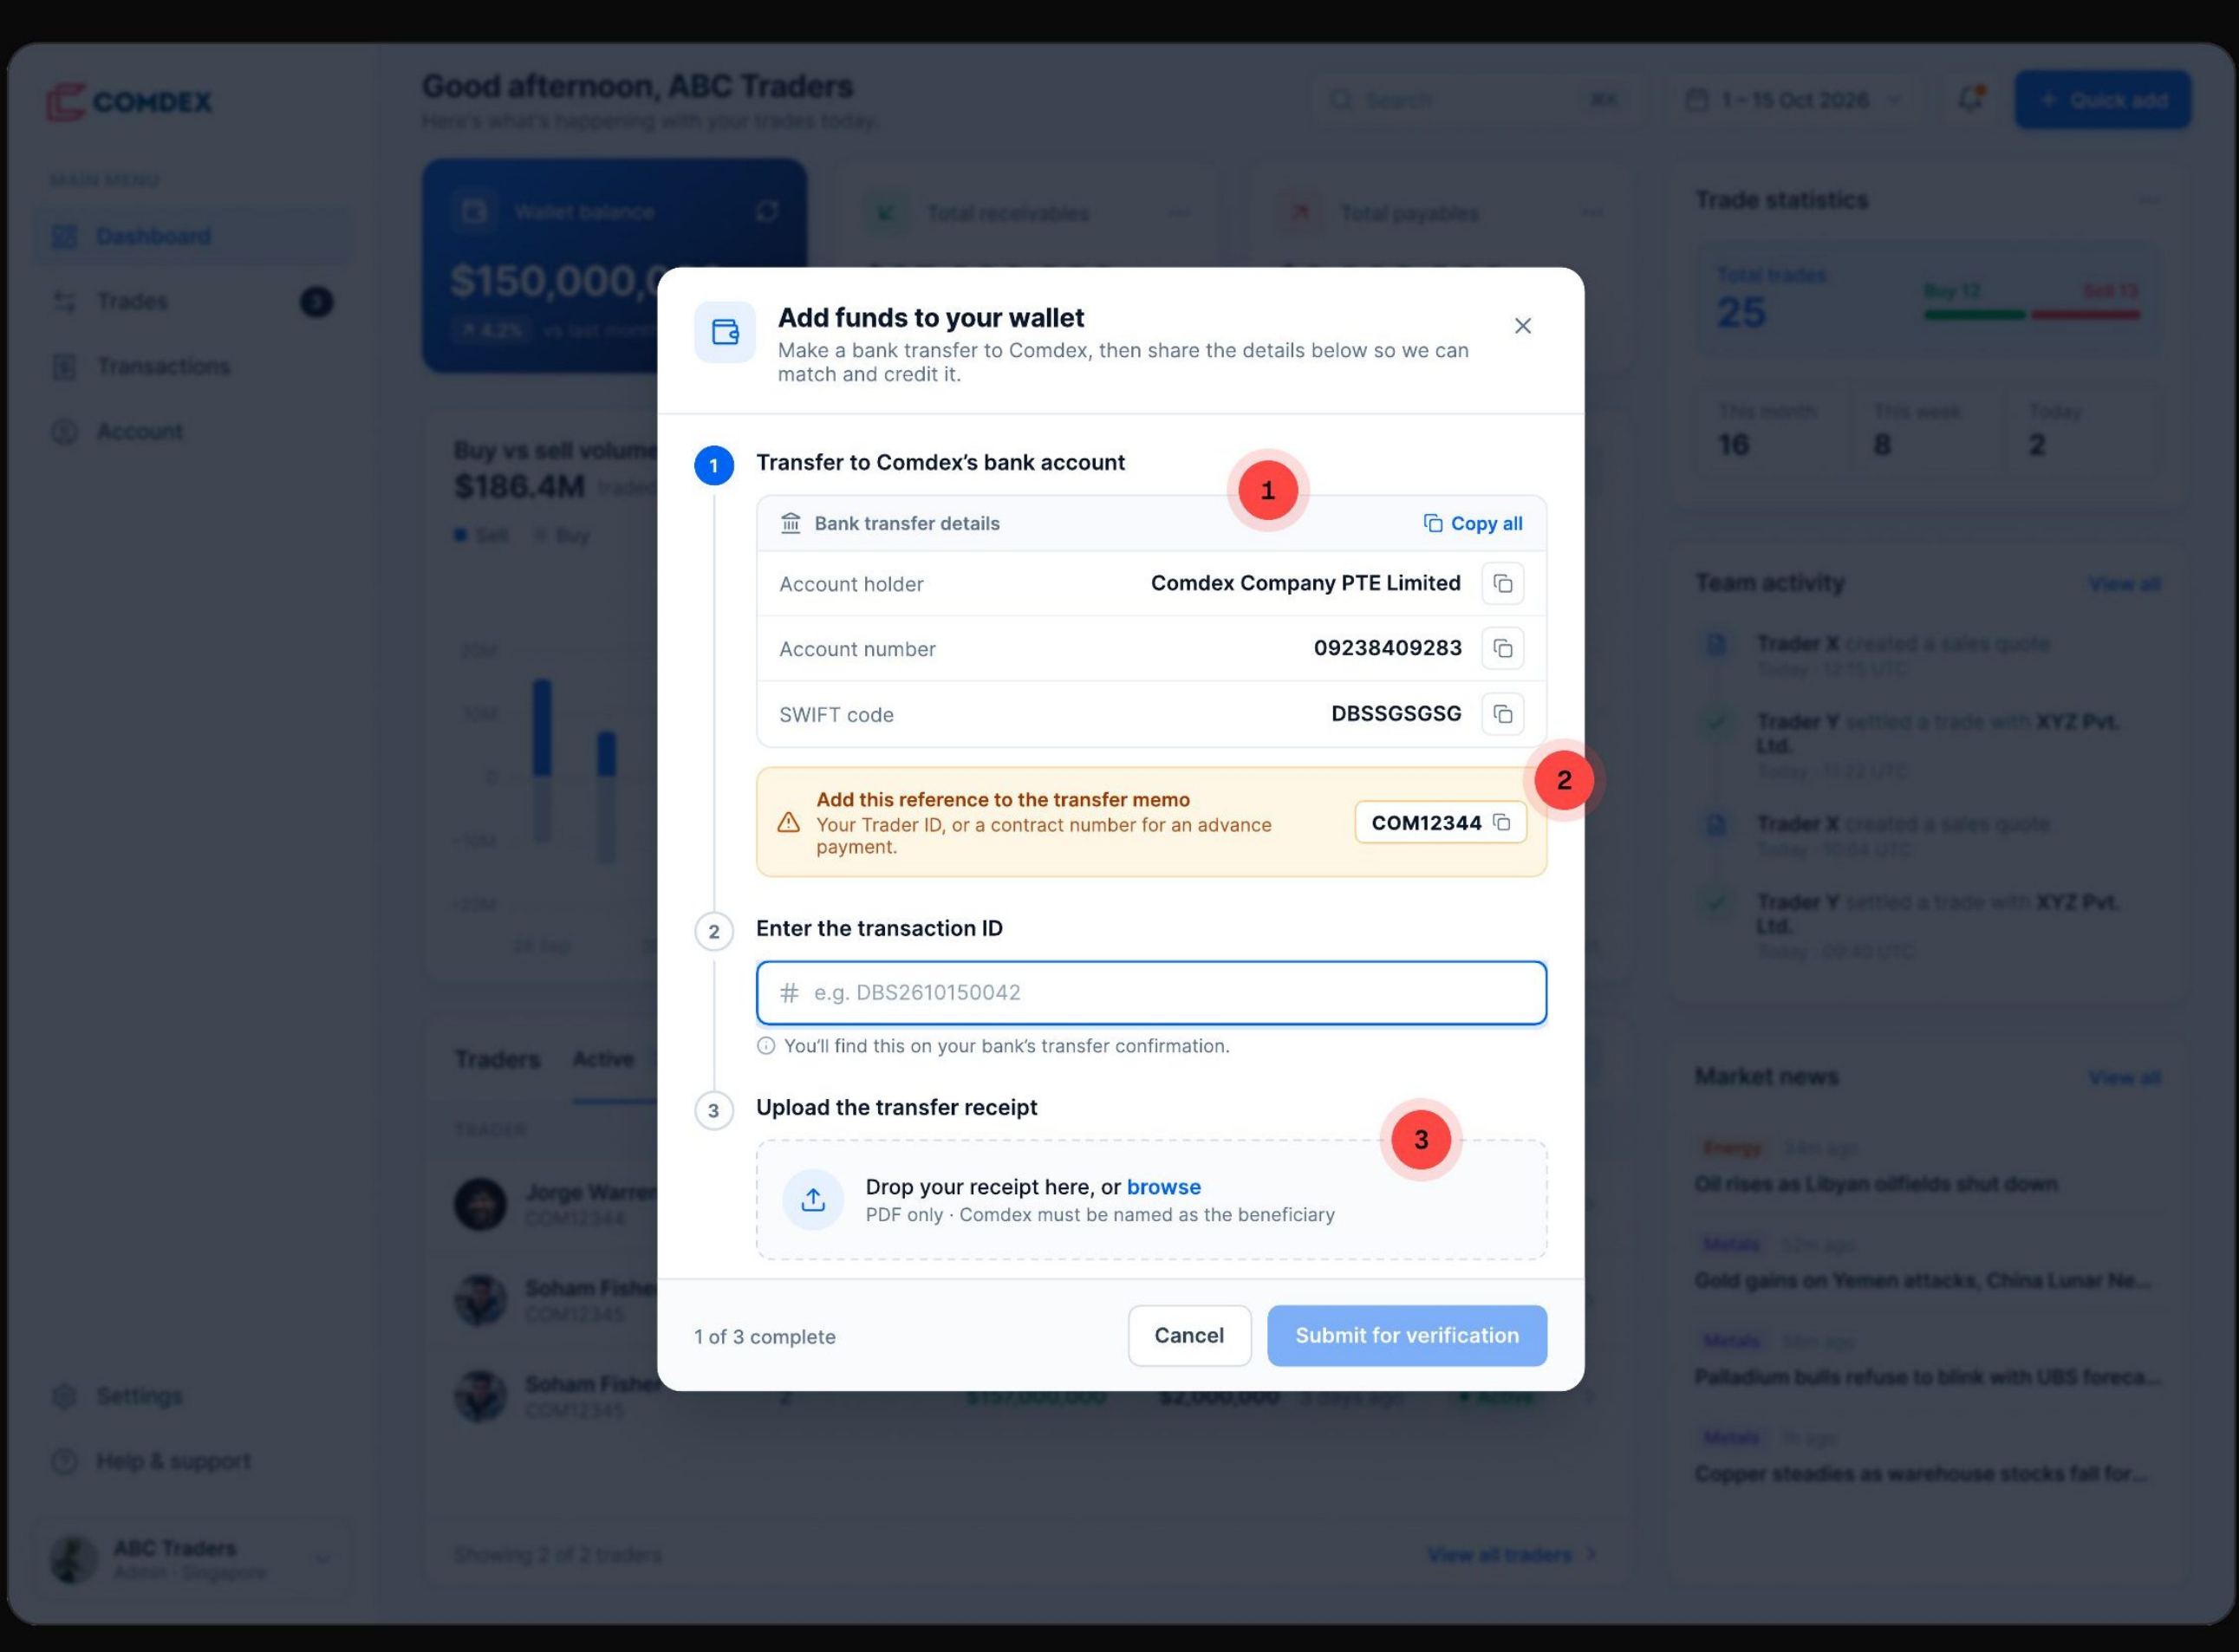
① **Listing type up top.** It's the one choice that can't be undone, so everything below adapts to it.

② **Fields mirror trade documents.** Traders fill in what they already know from paper — no new mental model.

③ **Running value, always visible.** The order total updates live, so there are no surprises at confirm.

C — FIAT DEPOSIT

Fiat in, trade unlocked — no 24-hour correspondent-bank wait.



Add funds to your wallet
Make a bank transfer to Comdex, then share the details below so we can match and credit it.

1. Transfer to Comdex's bank account

Bank transfer details	
Account holder	Comdex Company PTE Limited
Account number	09238409283
SWIFT code	DBSSGSGSG

Add this reference to the transfer memo
Your Trader ID, or a contract number for an advance payment. COM12344

2. Enter the transaction ID
e.g. DBS2610150042
You'll find this on your bank's transfer confirmation.

3. Upload the transfer receipt
Drop your receipt here, or browse
PDF only · Comdex must be named as the beneficiary

1 of 3 complete

① **Bank details, copy-ready.** Laid out like the wire slip traders already send.

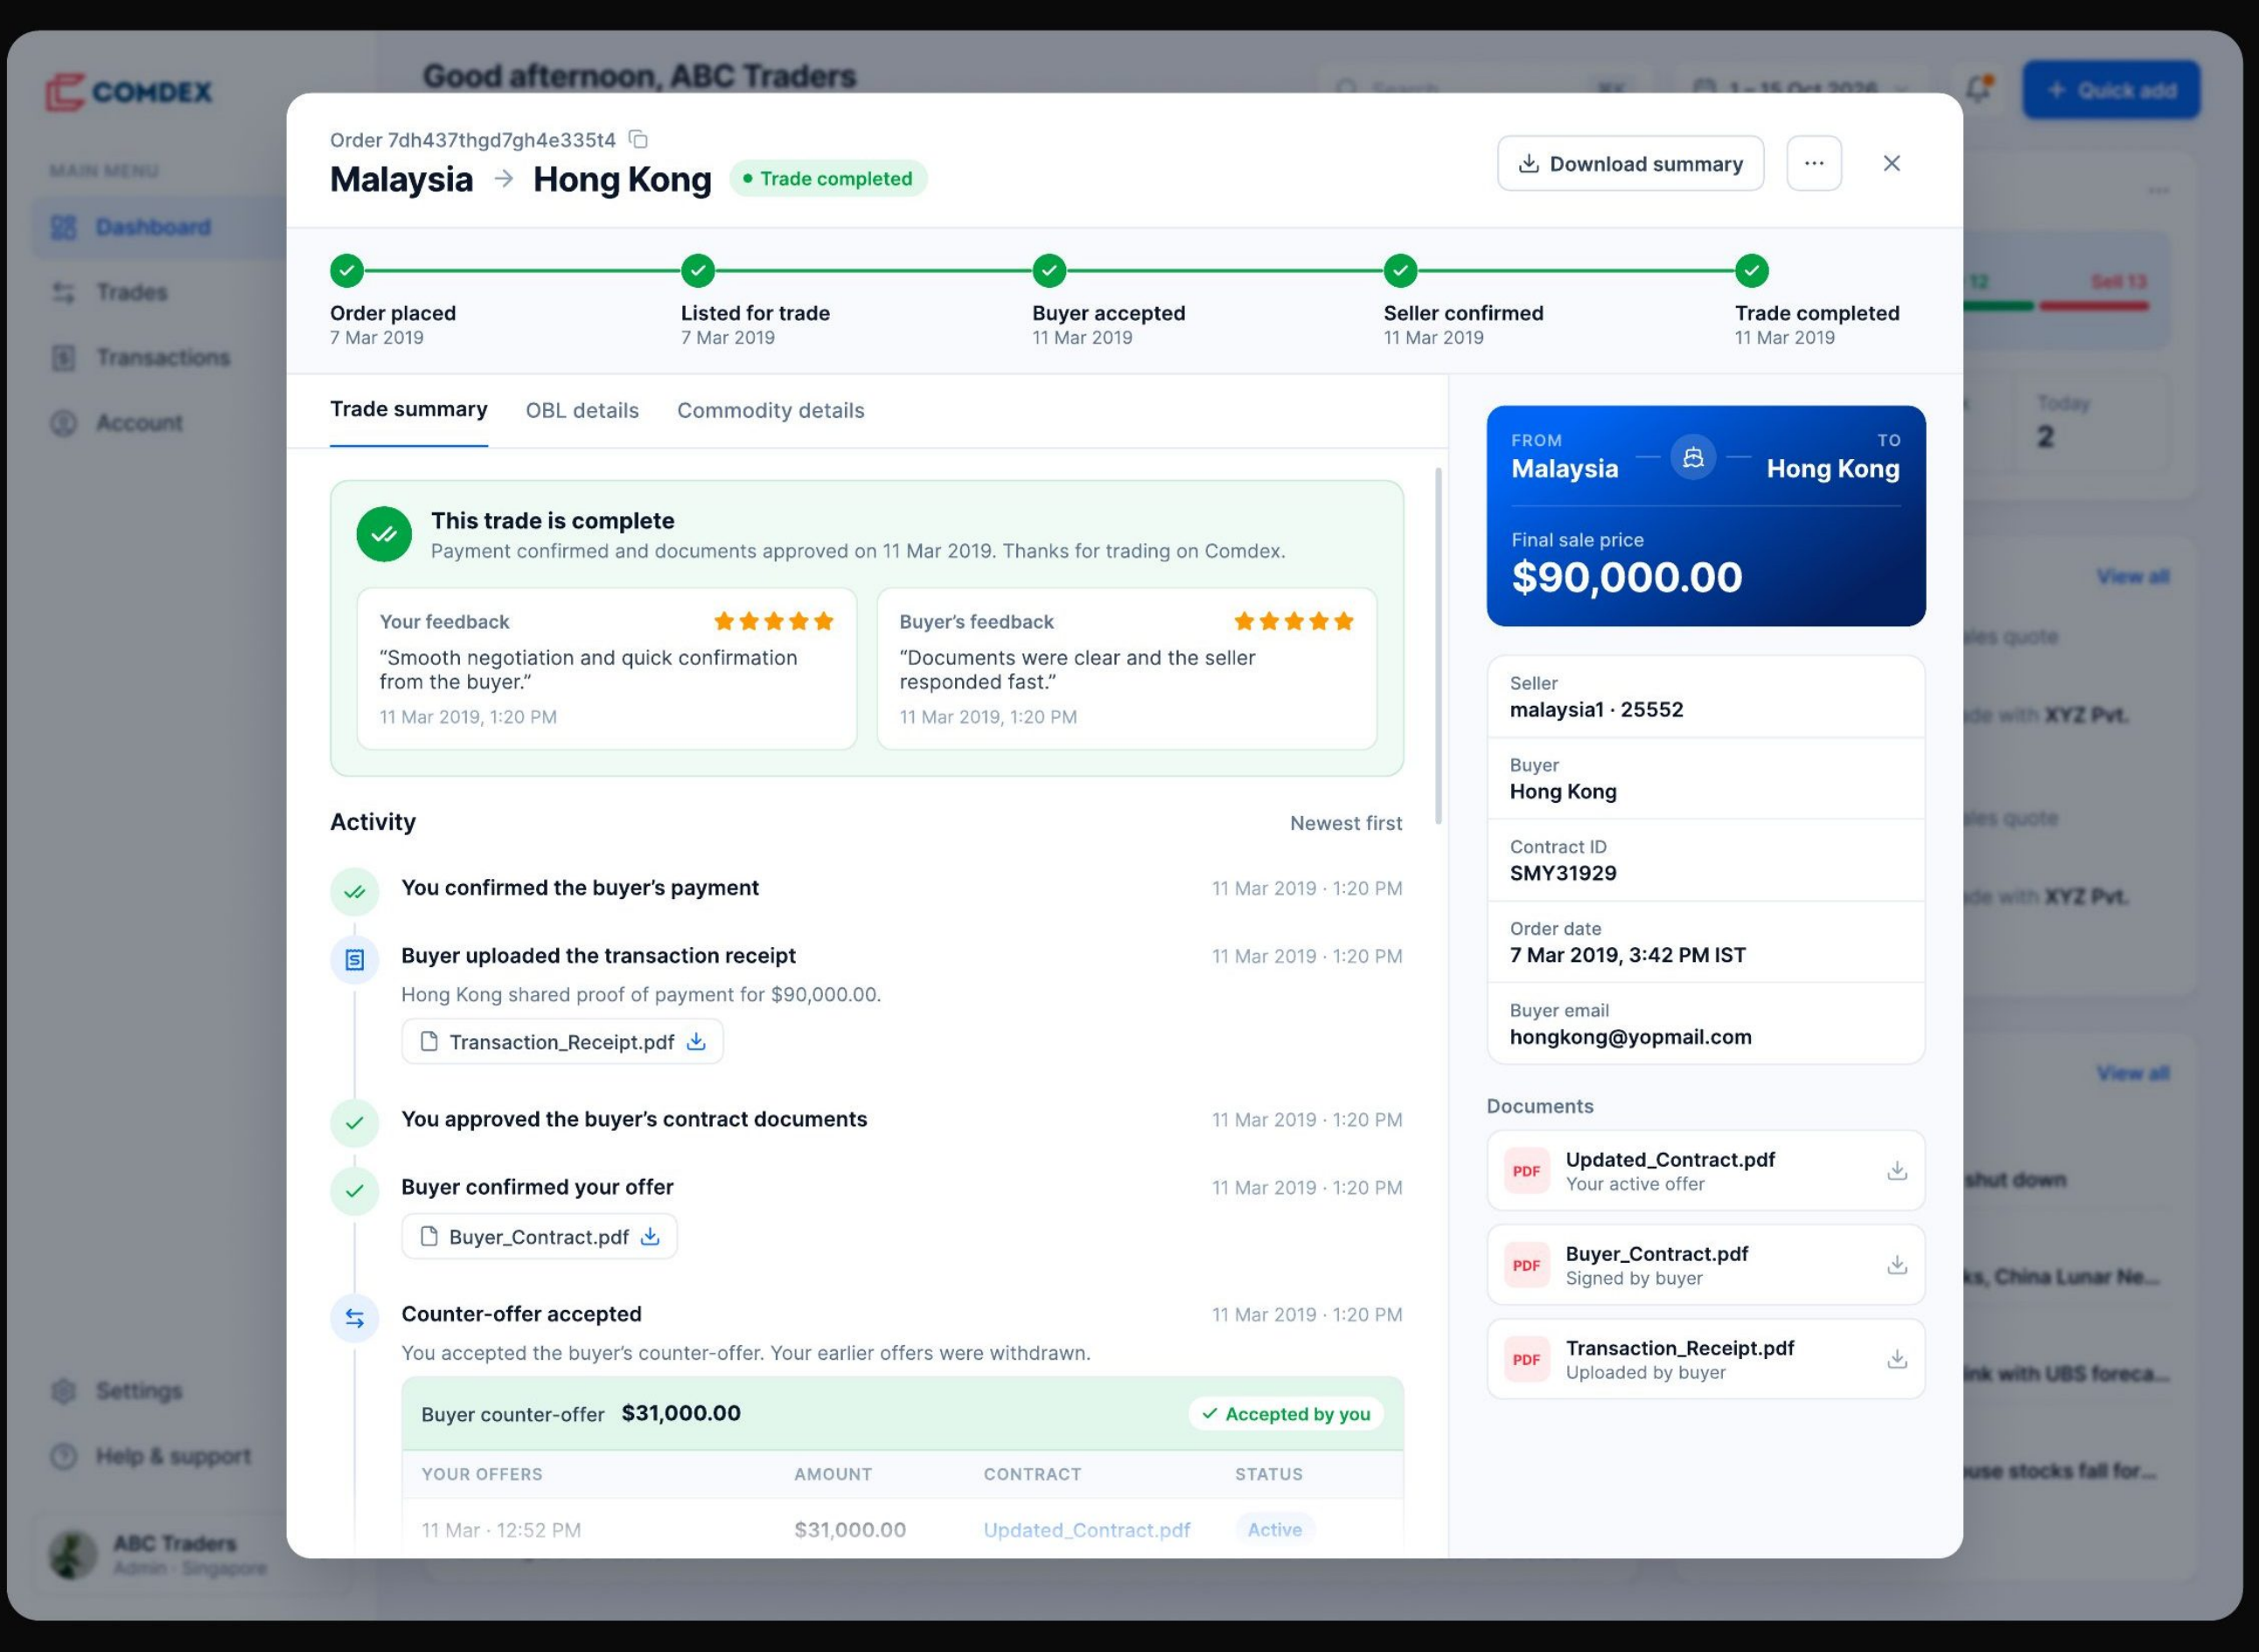
② **Reference ties the wire to you.** No back-and-forth to match a payment to an account.

③ **Upload proof, start trading.** Funds unlock as dUSD instead of waiting on a correspondent bank.

05 —— OUTCOME

Days of email became one session.

BEFORE		AFTER
A multi-day loop of emails, PDFs and correspondent banks.	→	A single Deal Room session — negotiate, document and settle in one place.



Order 7dh437thgd7gh4e335t4
Malaysia → Hong Kong · Trade completed

Order placed 7 Mar 2019 · Listed for trade 7 Mar 2019 · Buyer accepted 11 Mar 2019 · Seller confirmed 11 Mar 2019 · Trade completed 11 Mar 2019

This trade is complete
Payment confirmed and documents approved on 11 Mar 2019. Thanks for trading on Comdex.

Your feedback ★★★★★
"Smooth negotiation and quick confirmation from the buyer."
11 Mar 2019, 1:20 PM

Buyer's feedback ★★★★★
"Documents were clear and the seller responded fast."

WHAT I'D DO NEXT

- Mobile companion app
- Counterparty reputation graph
- Live bank-rail status

06 —— LEARNINGS

What I'd carry into any complex B2B product.

01
Lead with the irreversible choice.
Ask for the listing type first, then let the form follow from it.

02
Borrow the industry's documents.
Reuse them as the UI pattern instead of inventing a new one.

03
Identity is the happy path.
Treat reusable identity and running values as part of the core flow, not edge cases.

04
Design settlement with discovery.
Do both in the same pass — or the product splits into two apps.

Thanks for reading.
